HAPPY NEW YEAR!

While we look forward to a fulfilling 2024, let's pause and appreciate the progress we've made in 2023. Change and improvements were constant with staff development, adding new activities and outings and making improvements to our building.

We would like to acknowledge Scull Construction and TSP, Inc. for helping us redesign our space to expand the scope of our services and to serve more families. We expect construction to start in the upcoming months, which will result in a temporary relocation. Stay tuned for details!

As word spreads about the impact our services make on the lives of our caregivers and their loved ones, we will have no problem filling our new space with new friends!

Together, we will make 2024 a year of growth, innovation, and impact. We are grateful for the opportunity to serve our community and contribute to improving the quality of people's lives.
